Ancestry.com, U.S. School Yearbooks [database on-line], Provo, UT, USA: Ancestry.com Operations, Inc., 2010. Original data: Various school yearbooks from across the United States.

Source Description
This database is a collection of middle school, junior high, high school, and college yearbooks from across the United States. While yearbooks may not provide information about the vital events that are usually associated with genealogical research, they do provide other information about individuals' lives. This information helps place people in historical context as well as provides detail that helps turn individuals, sometimes only known by names and dates, into actual people. [Learn more...](#)
